

**Panama City, Florida
is experiencing a
building boom**

New high rise hotels, condo's, and resorts line Panama City's Gulf Coast beach's as far as the eye can see in both directions

**The Infinity Blu
Development is
committed to using
“green technologies” in
their new project in
Panama City**

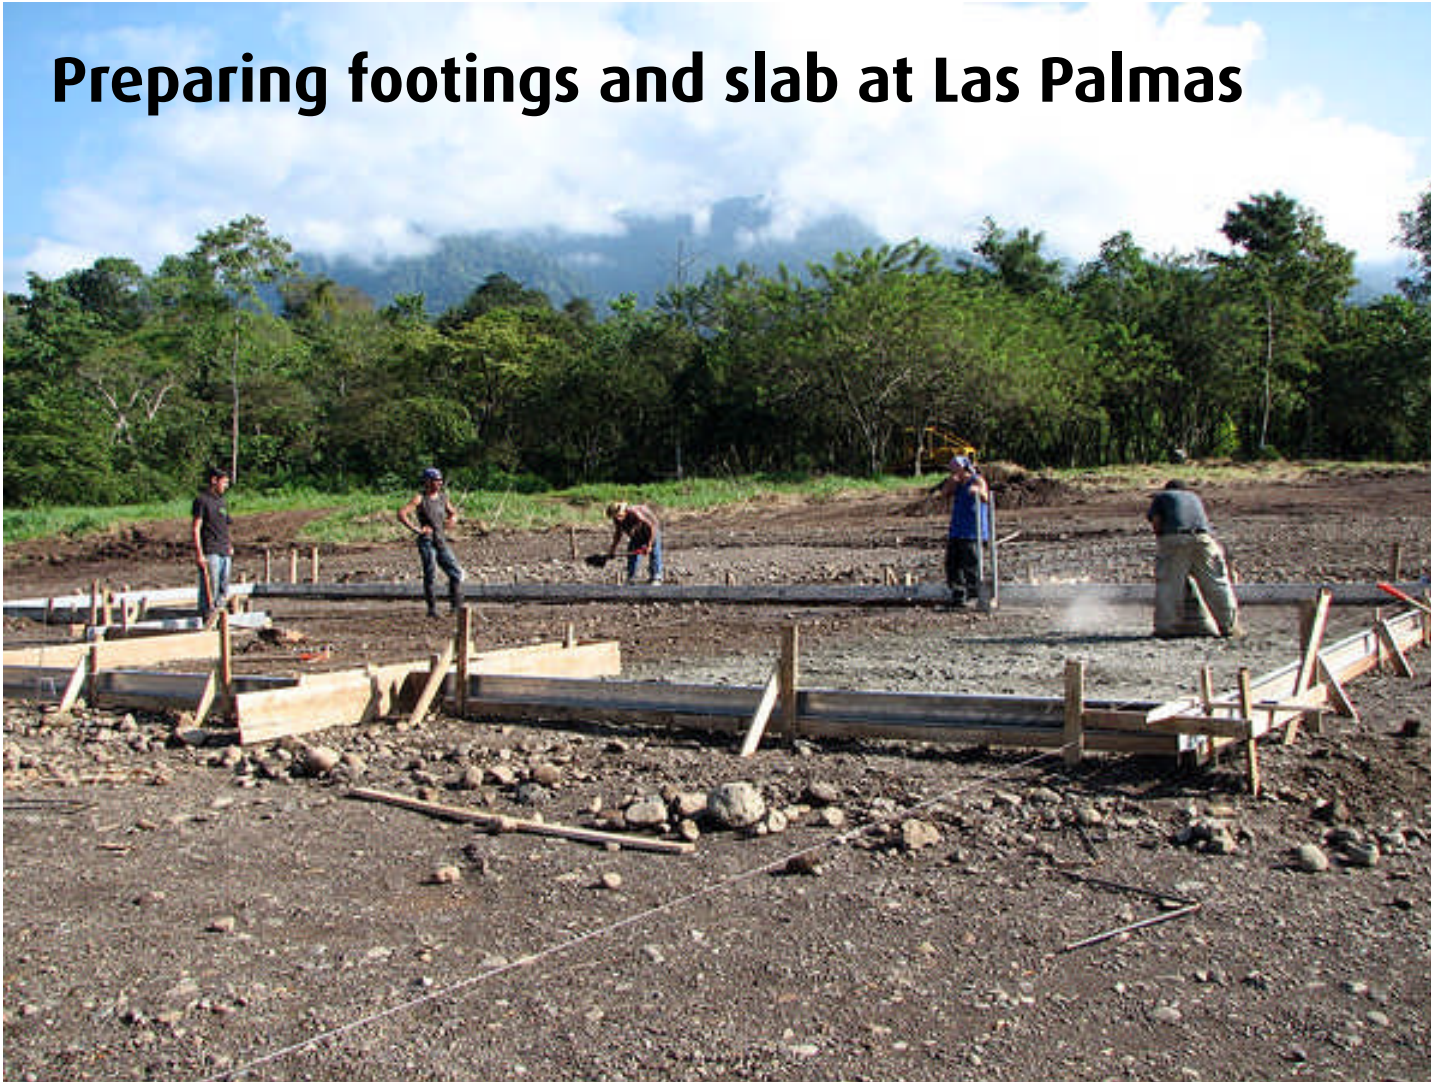

The owners have committed to using Thermo-shield products throughout this incredible, cutting edge project. Expected construction start date is 2010

**Concept drawing of
villa's found in Gated
Community Las Palmas
in beautiful Costa Rica**

Preparing footings and slab at Las Palmas

Construction begins in Costa Rica

Concrete being pumped into footings and slabs. View from entrance to development summer 2007. We have shipped the first 500 gallons to Costa Rica Fall 07. I believe there is to be 600 homes in this development.
