

**The concrete deck around this pool in Las Vegas has been coated with a product call Kool Deck. It is basically a texture system and starts to look bad after 2-3 years.**

**The Thermo-shield being applied is a much darker color. This new brown stays much cooler to the touch than the old white surface.**

**Before**

**After**

**Owner reports “I can stand on the Thermo-shield, in my bare feet, in the middle of the hot Las Vegas summer and it does not burn ! If I try to stand on the concrete that has not been covered , HOT, HOT, HOT I gasp as I run for the shade.”**
